

Assignment 1: Introduction

Dashiell Ridolfi-Starr

OVERVIEW

This exercise accompanies the introductory material in Environmental Data Analytics.

Directions

1. Rename this file `<FirstLast>_A01_Introduction.Rmd` (replacing `<FirstLast>` with your first and last name).
2. Change “Student Name” on line 3 (above) with your name.
3. Work through the steps, **creating code and output** that fulfill each instruction.
4. Be sure to **answer the questions** in this assignment document.
5. When you have completed the assignment, **Knit** the text and code into a single PDF file.
6. After Knitting, submit the completed exercise (PDF file) to the appropriate assignment section on Canvas.

1) Discussion Questions

Enter answers to the questions just below the `>Answer:` prompt.

1. What are your previous experiences with data analytics, R, and Git? Include both formal and informal training.

Answer: I have no experience with R and Git. I have about two years of experience designing studies and collecting, analyzing, and visualizing data (in Tableau) for work, although this was all self taught.

2. Are there any components of the course about which you feel confident?

Answer: Generally, I take well to logical thinking and I am confident in my ability to learn new skills and platforms.

3. Are there any components of the course about which you feel apprehensive?

Answer: Understanding how Git and RStudio work seems like a lot to digest at once.

2) GitHub

Provide a link below to your forked course repository in GitHub. Make sure you have pulled all recent changes from the course repository and that you have updated your course README file, committed those changes, and pushed them to your GitHub account.

Answer: https://github.com/dashiellrs/EDE_Fall2025

3) Knitting

When you have completed this document, click the `knit` button. This should produce a PDF copy of your markdown document. Submit this PDF to Canvas
